PROFESSIONAL EXPERIENCE

Product Owner

Jan 2023 - Present

Rethink First (New York, NY) *B2B SaaS Behavioral Health Technology*

- Delivered 5 high-impact features, achieving a 75% adoption rate across 70K MAUs by prioritizing the product backlog in close collaboration with engineering, design, QA, sales, and marketing to align with customer needs and business objectives.
- Increased sprint velocity by 10% by using AI tools to streamline the creation of user stories, acceptance criteria, user flows, feature prototypes, and training materials.
- Reduced post-launch support tickets by 34% by creating comprehensive release documentation and conducting product training for customer support teams.
- Enhanced product performance and boosted CSAT to 90% by gathering and implementing user feedback via interviews and surveys with internal and external stakeholders.
- Key Successes:
 - Designed an on-demand webinars page, improving content accessibility and engaging 7,000 new users in the first quarter of launch.
 - Improved client progress by 15% by leading the development of an AI-powered “Goals” generator that converts consultation transcripts into actionable client objectives, enhancing therapist workflows and user outcomes.
 - Achieved an 89% registration completion rate by implementing a new registration flow that streamlines the product onboarding process for new users.

Front-End Developer Intern

Mar 2022 – Sept 2022

Applied Visions (Northport, NY) *B2B Software Consultant*

- Enabled developers to troubleshoot performance issues in running applications by building system diagnostics pages in React, TypeScript, and GraphQL.
- Identified new product opportunities and minimized feature gaps by conducting competitor analysis and market research.
- Created a component library in Figma to automate style changes and improve design team efficiency.

Website Design & Data Management Intern

Jun 2021 – Dec 2021

GlobalFoundries (Malta, NY) *Semiconductor Manufacturing*

- Led the creation of the company’s “Global Re-Entry Program” website. The program recruited over 10 new candidates within the first 6 months of launching.
- Facilitated the migration and redesign of the research & development team’s internal website; the 300-page site supports over 15,000 employees.
- Enhanced internal data reporting tools by creating feedback channels to gather and prioritize feature requests.
